

God of Strength

God of strength willing to die in weakness
Ageless One, dying that I might live on

Forever will I sing
of love come down
of freedom found in You
Forever will I be in debt of all You've done for me

Clothed in peace, crucified without mercy
I am found because You laid Your life down

Forever will I sing
of love come down
of freedom found in You
Forever will I be in debt of all You've done for me

All I need is You, all I need is You, all I need is You

Forever will I sing
of love come down
of freedom found in You
Forever will I be in debt of all You've done for me

All I need is You, all I need is You, all I need is You
All I need is You, all I need is You, all I need is You
All I need is You
